It is an error to suppose that only editors and reporters supply news worth reading. The skillful advertiser furnishes a good share of it, and if there are any readers who fail to look over the advertising columns of their paper, they miss a great deal of information that would prove valuable to them.

A committee of delinquent railroad tax payers of Belton township waited upon the County Treasurer this week and informed him that they were ready for him to serve his executions, and were anxious for him to do so in time for the issue to be determined by the Court at its next session fo this county. They propose to fight the matter to its bitter end, and do not desire to be relieved of the penalty or any other cost resulting from their action.

We presume similar instruc-tions have been given the Treasurer of Abbeville county. The advertisement should have appeared last week, but was inadvertantly left out.

> The discussion of the question of Prohibition, which is now attracting so much attention all over the State, is opened in the INTELLIGENCER this week by Mr. W. W. Brown, of Williamston. We believe the discussion of the question in the public journals will do good, and for that reason cheerfully give publicity to the views of our friend; and if there are others who feel disposed to take a hand in the ventilation of the matter, our columns are open to them so long as they keep within proper limits and abstain from personalities of an injurious nature. It is a subject on which there is a great deal to be said on bot's sides, and the debatants should keep cool and preserve their equilibrium.

An important railroad meeting is now being held at Statesville, N. C., the object of which is the consideration of the question of extending the Virginia Midland Road to the South Atlantic coast. The twin bed spring is one of the best things introduced in this section in a long time, and everybody who can spare five dollars should buy a set from the gentlemen now canvassing the town. When it is considered that people spend at least onethird of their lives in bed, and that refreshne to the system and vigo to the mind, it does seem that beds should be made as comfortable as possible. Many a man has worn himself out on hard and uncomfortable beds, when a small sum of money would have not only secured him comfort, but would also have prolonged his life by years. It appears from the proceedings of a meeting published in the Abbeville Medium of last week that there is dissatisfaction among the citizens of Calhoun township, in Abbeville county, over the location of the Savannah Valley Railroad, and in order to settle the question as to whether the location is being made in accordance with the charter and by-laws of the Company, the President is requested by the meeting in the clifferent townships to elect delegates to attend the annual meeting in May, when the action of the Directors will be gates to attend the annual meeting in May, when the action of the Directors will be gates to attend the annual meeting in May when the action of the Company, in Calhoun township, the Medium makes in Calhoun township, the Medium and the company of the following very sensible remarks: "This dissatisfaction has arisen too late to do any good. It is Found at Last! Something New Under the Sun.—A new era is dawning upon woman. Hitherto she has been called upon to suffer the ills of mankind and her own besides. The frequent and distressing irregularities peculiar to her sex have long been to her the "direful spring of woes unnumbered." In the mansion of the rich and hovel of poverty alike woman has been the constant yet petient victim of a thousand ills unknown to man—and without a remedy. "Oh Lord, how long!" in the agony of her soul, hath she cried. But now the hour of her redemption is come.
